

Reception – Autumn 2 Topic Web

Communication and Language

This term, we will be developing our listening skills through group discussions and expressing our ideas. We will begin to anticipate key events in stories and give meaning to the marks we make in school. We will also begin learning about phonemes and graphemes and implementing them in our learning.

Mathematics

In maths, we will continue to learn about counting and will begin to understand the composition of numbers, focusing on numbers 1-10. We will show our understanding by matching quantities to numerals and representing a given number with manipulatives.

Literacy

This term, we are reading two stories. The first is 'Owl Babies' by Martin Waddell and Patrick Benson. Through this story, we will be sharing ideas, making predictions and showing our understanding through mark making. The second book is 'Bedtime for Monsters' by Ed Vere. Through this story, we will participate in group discussions and make a class poem.

Understanding the World

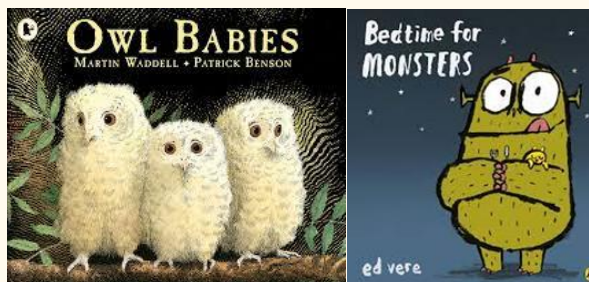

This term, we will begin to learn about our environment and the natural world as we learn about nocturnal animals and their habitats.

Physical Development

We will develop our gross motor skills through movement and physical activities. We will also begin to develop our fine motor skills through mark making.

PSED

We will be exploring our own feelings and those of others as we build positive relationships within our classroom. Children will start to set simple goals and making steps to achieve them.

Expressive Art and Design

We will be exploring different materials and tools to express our understanding.
