

YEAR 5 – AUTUMN 2 TOPIC WEB

ENGLISH

We will be focusing on our class core text, *Street Child* by Berlie Doherty.

As the children explore the text, they will practice different writing styles, such as recounts, persuasive letters and character descriptions.

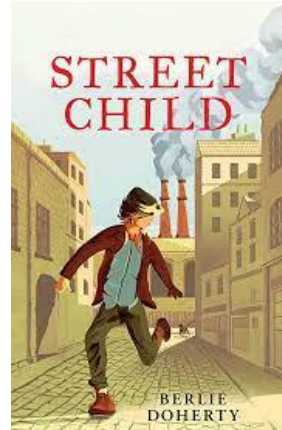

MATHS

This term our focus will be on multiplication, division and fractions.

This will build on the children's prior knowledge of multiplication and division and partitioning.

SCIENCE

Our focus is on Forces. This will lead us to learning about air and water resistance and how different forces affect the way an object moves. We will be completing practical tests to explore and find conclusions.

HUMANITIES

Our key learning will be based on the Victorian Era. The children will learn about life in Victorian Britain and its challenges, but also about the great change that the Victorian Era brought for society.

RE

We will be looking at the question: "Why do some people believe God exists?" We will explore how believing in a religion can affect people's lives, particularly focusing on the beliefs around Christmas.

ART & DESIGN

Linking in with our learning in history, the children will be learning about William Morris. We will be exploring his art style, printing, and working towards completing our own piece inspired by Morris's work.

COMPUTING

We will be looking at media production and creating short videos. The children will be involved in creating and editing their videos and learn topic-based knowledge.
